Speaker Mark McCurties states that “A central theme of Christ Jesus’ ministry was to teach and show that the power of God’s love can help us to overcome injustice and suffering. There is a great need for help and healing in the world today, and living with more Christ-like humility can help us meet that demand.”

Mark is a Christian Science practitioner and member of the Christian Science Board of Lectureship.

Video available for replay for two weeks following (August 18 - September 1).
